

INTRODUCTION

Craftsman Gardener Services are an award winning landscaping company which has been in operation since 1981.

Peter Halligan has been the Managing Director from the time the company was formed. He has Diplomas in Business Sales and Management.

Peter has been a member of the Landscape Association of NZ since 1983. He was Chairman of the Auckland Division for six years and was National President for the maximum allowed term of two years.

Peter was honoured to be awarded a 'Life Membership' of LIANZ in 2005; this is the Landscape Industries Premier Award.

We employ fifteen staff. All of the senior staff are highly qualified in their field, and we pride ourselves in our comprehensive landscape apprenticeship programme, in which all intermediate and junior staff are enrolled. This guarantees a quality job.

We have developed a complete Health & Safety Management Plan and are determined to provide a safe workplace for our employees and are committed to its continued development.

We have a close association with various subcontractors, for any specialised landscaping requirements, which we have developed over the years. This includes pool builders, stonemasons, sculptors and landscape designers.

We own and operate a complete plant nursery on a six acre horticulture block in Whenuapai trading as Totara Grove Nurseries Ltd. The nursery is capable of producing 300,000 plants per annum. Our nursery is managed by Tom and Ann Johnson who have extensive years of experience in nursery management.

We offer a complete landscape service from consultation, project management, implementation through to ongoing garden management.
